## Education

**Indian Institute of Technology, Patna**

**July 2024 - May 2028**

*Bachelor of Technology in Electronics and Communication Engineering*

**CPI: 7.55**

**The Vivekananda School Narela, Delhi**

**April 2022 - May 2024**

*Class 12th, PCM*

**Percentage: 90.8%**

## Experience

**Windflow.ai**

**May 2026 – July 2026**

*AI Engineering Intern*

*Gurgaon, India*

- Shipped a production **LLM voice interviewer** on **GCP Cloud Run** probing agents on **4 diagnostic pillars**.
- Unified **14 OCR engines** and **9 LLM extractors** into a single benchmark suite with **250+** automated tests.
- Evaluated a **20-model** forecasting zoo on **12 public datasets**; GBMs beat seasonal-naive by **9–18%** on RMSSE.
- Led a pre-registered A/B study on **5 paired builds**; measured **4–5%** token savings, advised against adoption.
- Developed a human-in-the-loop golden pipeline: **ROVER** voting, **Dawid–Skene EM**, and LLM arbitration.
- Instrumented per-call LLM cost analytics (**Langfuse**, **LiteLLM**) on a PostgreSQL backend with abuse detection.

## Projects

**Meridian – Multi-Agent Energy Supply-Chain AI** | *Next.js, TypeScript, deck.gl* | **GitHub**

- Built a multi-agent crisis-response app in **2.4K LOC** TypeScript with **12** components, **3** sim engines.
- Wired **4 live data APIs** (EIA, GDELT, OFAC, AISStream) into a real-time deck.gl geospatial dashboard.
- Modeled a **6-metric** economic cascade with a sanctions-compliance layer vetting **3** reroutes per crisis.

**TARK AI – AI Legal Assistant & Contract Generator** | *Python, Ollama, LaTeX* | **GitHub** | **Pitch Deck**

- Co-developed (**team of 4**) an AI legal assistant serving **3 user personas** that auto-generates legal contracts.
- Architected a **2-stage Generator–Challenger LLM pipeline** where a fact-checker model verifies every answer.
- Programmed **6+ parameterized legal templates** (NDA, rent, partnership) that auto-render LaTeX to PDF.
- Instrumented **audit-mode JSON logging** and a **5-turn** conversation memory capturing every model decision.

**Campus Cab Pooling Platform – IIT Patna** | *Python, PyQt5, SQLite* | **GitHub** | **Presentation**

- Built a **~900-LOC MVC** desktop app (Python) for campus ride pooling across **3 route types** and festivals.
- Modeled a normalized **3-table SQLite** schema with **SHA-256** password hashing and credential validation.
- Engineered **3 search modes**: fuzzy Levenshtein matching, date-range queries, and popular-route analytics.

## Achievements

- Amazon ML Summer School 2026**: Selected in top **3,000** of **1,34,000+** applicants (**~2%** selection rate).
- JEE Advanced 2024**: Secured All India Rank **5673** among the top **2.5 lakh** shortlisted JEE Mains qualifiers.
- JEE Mains 2024**: Scored **98.7 percentile** (All India Rank **19903**) among **1.5 million** candidates nationwide.
- Inter IIT Cultural Meet 7.0**: Won the **Bronze** medal in Stageplay, competing against teams from all **23 IITs**.

## Technical Skills & Coursework

**Programming:** Python, TypeScript, JavaScript, C++, C, SQL, Bash

**AI/ML:** LLM Pipeline Design, Agentic Systems, Prompt Engineering, STT (Whisper, Sarvam), LightGBM

**Frameworks & Databases:** Next.js, React, Node.js/Express, FastAPI, Prisma, PostgreSQL, SQLite, PyQt5

**Cloud & Tools:** GCP (Cloud Run, Cloud SQL, Secret Manager), Docker, Langfuse, Git, Figma, LaTeX

**Concepts:** MVC Architecture, Modular System Design, Database Schema Design, REST APIs, OOP, DSA, PRD

**Coursework:** Data Structures, Signals & Systems, Probability, Linear Algebra, Statistics, Complex Analysis

## Extra Curricular

- TEDxIITPatna Sub-Coordinator:** Curated **8** speakers from **1,000+** contacts for a **300+** attendee TEDx event.
- Yavanika (Dramatics) Sub-Coordinator:** Managed a **50-member** cast across **5** productions; acted in **2** plays.
- NSS Volunteer:** Mentored **100+** students across **2** schools over **2** semesters via labs & wellness drives.
